

# Department of the Air Force (DAF) Bird/Wildlife Aircraft Strike Hazard (BASH) Program: Total Reported Damaging & Non-Damaging Wildlife Events

**Notes:** This data is for wildlife events reported. Please note that a single wildlife event can include multiple individuals struck. This graph depicts the DAF wide total reported wildlife events from FY15 to FY24. This includes both damaging and non-damaging bird strikes reported into the AFSAS (Air Force Safety Automated System). Based on the currently reported FY24 data, the total number of wildlife events for FY24 is 2,976 which is lower than the 3,298 reported events in FY23. Overall, reported damaging and non-damaging wildlife events has been generally decreasing over the past ten years (FY15-FY24) based on current data.
