

Department of the Air Force (DAF) Bird/Wildlife Aircraft Strike Hazard (BASH) Program: Wildlife Event Rate per 100K Flight Hours and Cost in Millions

Notes: This graph shows the DAF wildlife event rate per 100K flight hours along with the associated fiscal year costs from FY15 to FY24. In FY23, wildlife events cost the DAF approximately 34 million. Between FY23 and FY24, there was a decrease in cost, with FY24 currently projected to cost the DAF 12 million. From FY24 to FY24, there was also an increase in the wildlife event rate per 100K flight hours, demonstrating that wildlife event rate does not necessarily correlate directly with event cost. From FY22 to FY23, we do see an increase in both cost and event rate.
