

Why I ride – Ginno N. Gomez Pagan

I have always liked riding since, 10 years old and used to have different minibikes living in Puerto Rico.

Joining the Air Force in 2020 and getting stationed in Florida (Hurlburt Field) in 2021, this area felt a little like back home.

I just got my first bike this year 2023 and have been riding for 3 months. I enjoy every turn on the bike and go for a ride even if it's to just get gas. I ride because it relaxes me and makes me concentrate in the moment on what I am doing. It's a time I take for myself and not be paying attention to the phone, social media, or the radio. Going for a ride to hear the road and hear the sound of my bike. I hope to keep on riding for years to come!
