AFSEC COURSE PREREQUISITES

AMIC/SMIC Prerequisites:

1. Students enrolled in AMIC or SMIC must complete the following distance learning courses before arrival:

    - Material Factors Course (C11645)

    a. Click on this myLearning link to complete the training: https://www.my.af.mil/gcss-af/USAF/content/mylearning

    b. Search by course name or course number

2. Students enrolled in AMIC or SMIC must establish an AFSAS Simulator account with elevated roles at https://sim.afsas.safety.af.mil before arrival. Click on the "Create AFSAS Account" hyperlink. Input strong justification, such as "Attending AFSEC Aircraft Mishap Investigation Course." Account can be denied for insufficient justification. Request an account as soon as possible to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you're three days out from departure and haven't received a confirmation e-mail that the account has been approved. Log into AFSAS before departure from home station to ensure access has been granted.

    After your account is created, you must request elevated roles under "My Account Roles." Below are the minimum roles to select:

    AFSAS Basic Account
    Data Extraction Access: Events
    Date Extraction Access: Recommendations
    Event Tabs: View (JA Time Restricted)
    Event Tabs: View (Org & Time Restricted)
    Event: Data Viewer
    Event: Investigator
    Event: Message (View Only)
    Event: Message Approval
    Recommendation: Coordination
    Recommendation: OCR Management
    Recommendation: Update (OPR/OCR)
    Recommendation: View Only
    Workspace: US Air/Space Force

Computer Access: You'll need an Air Force Network (AFNET) account to log in to AFSEC computers.

ASPM Prerequisites:

1. Students enrolled in ASPM must complete the following distance learning course before arrival:

    • Protecting Privileged Safety Information (C11455)

    a. Click on this myLearning link to complete the training: https://www.my.af.mil/gcss-af/USAF/content/mylearning

    b. Search by course name or course number

2. Students enrolled in ASPM must establish an AFSAS production account at https://afsas.safety.af.mil before arrival. Click on the "Create AFSAS Account" hyperlink. Input strong justification, such as "Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required." Account can be denied for insufficient justification. Request an account as soon as possible to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you're three days out from departure and haven't received a confirmation e-mail that account has been approved. Log into AFSAS before departure from home station to ensure access has been granted.

    After creating your account, you must request elevated roles under "My Account Roles." Below are the minimum roles to select:

    Data Extraction Access: Events
    Data Extraction Access: Recommendations
    Event: Data Viewer
    Event: Investigator
    Event: Message (View Only)
    Recommendation: View Only
    Workspace: US Air Force

Computer Access: You'll need an Air Force Network (AFNET) account to log in to AFSEC computers.

BPC-COS Combo Prerequisites:

Students enrolled in BPC-COS must establish an AFSAS production account at https://afsas.safety.af.mil before arrival. Click on the "Create AFSAS Account" hyperlink. Input strong justification, such as "Attending AFSEC formal class; access to event data extraction tool and event data viewer is required." Account can be denied for insufficient justification. Request an account as soon as possible to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you are three days out from departure and haven't received a confirmation e-mail that account has been approved. Log into AFSAS before departure from home station to ensure access has been granted.

After creating your account, you must request elevated roles under "My Account Roles." Below are the minimum roles to select:

> Data Extraction Access: Events
> Data Extraction Access: Recommendations
> Event Tabs: View (JA Time Restricted)
> Event Tabs: View (Org & Time Restricted)
> Event: ASAP Triage
> Event: Supervisor Investigator
> Event: Data Viewer
> Event: Message Approval
> Recommendation: Approval
> Recommendation: Update (OPR/OCR)
> Recommendation: Coordination
> Workspace: US Air Force

Computer Access: You'll need an Air Force Network (AFNET) account to log in to AFSEC computers.

MINA Prerequisites:

Students enrolled in MINA must complete the following distance learning courses before arrival:

- Introduction to Mishap Investigation Non-Aviation (C11567)
- Protecting Privileged Safety Information (C11455)
