

# FY26 AFSEC COURSE PREREQUISITES

4 June 2026

## AMIC Prerequisites:

1. Students enrolled in AMIC must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

2. Students enrolled in AMIC must establish an AFSAS Simulator account with elevated roles at <https://sim.afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required.” Account can be denied for insufficient justification. Request an account upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you’re 3 days out from departure and haven’t received a confirmation e-mail that the account has been approved. Log into AFSAS before departure from home station to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After your account is created, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

- AFSAS Basic Account
- Data Extraction Access: Events
- Date Extraction Access: Recommendations
- Event Tabs: View (JA Time Restricted)
- Event Tabs: View (Org & Time Restricted)
- Event: Data Viewer
- Event: Investigator
- Event: Message (View Only)
- Event: Message Approval
- Recommendation: Coordination
- Recommendation: OCR Management
- Recommendation: Update (OPR/OCR)
- Recommendation: View Only
- Workspace: US Air/Space Force

Computer Access: Air Force Network (AFNET) account is required to log in to AFSEC computers.

## **ASPM Prerequisites:**

1. Students enrolled in ASPM must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

2. Students enrolled in ASPM must establish an AFSAS production account at <https://afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required.” Account can be denied for insufficient justification. Request an account upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you’re 3 days out from class start date and haven’t received a confirmation e-mail that account has been approved. Log into AFSAS before class start date to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After creating your account, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

Data Extraction Access: Events  
Data Extraction Access: Recommendations  
Event: Data Viewer  
Event: Investigator  
Event: Message (View Only)  
Recommendation: View Only  
Workspace: US Air Force

## **BPC-COS Prerequisite:**

Students enrolled in BPC-COS must establish an AFSAS production account at <https://afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to event data extraction tool and event data viewer is required.” Account can be denied for insufficient justification. Request an account as upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you are within 3 duty days of class start date and haven’t received a confirmation e-mail that account has been approved. Log into AFSAS before class start date to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After creating your account, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

- Data Extraction Access: Events
- Data Extraction Access: Recommendations
- Event Tabs: View (JA Time Restricted)
- Event Tabs: View (Org & Time Restricted)
- Event: ASAP Triage
- Event: Supervisor Investigator
- Event: Data Viewer
- Event: Message Approval
- Recommendation: Approval
- Recommendation: Update (OPR/OCR)
- Recommendation: Coordination
- Workspace: US Air Force

Computer Access: Air Force Network (AFNET) account is required to log in to AFSEC computers.

## **HFWSWP Prerequisite:**

Students enrolled in HFWSWP must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

## **MINA Prerequisites:**

1. Students enrolled in MINA must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

2. Students enrolled in MINA must establish an AFSAS Simulator account with elevated roles at <https://sim.afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required.” Account can be denied for insufficient justification. Request an account upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you’re 3 days out from class start date and haven’t received a confirmation e-mail that the account has been approved. Log into AFSAS before class start date to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After your account is created, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

#### AFSAS Basic Account

Data Extraction Access: Events

Date Extraction Access: Recommendations

Event Tabs: View (JA Time Restricted)

Event Tabs: View (Org & Time Restricted)

Event: Data Viewer

Event: Investigator

Event: Message (View Only)

Event: Message Approval

Recommendation: Coordination

Recommendation: OCR Management

Recommendation: Update (OPR/OCR)

Recommendation: View Only

Workspace: US Air/Space Force

Computer Access: Air Force Network (AFNET) account is required to log in to AFSEC computers.

## **RM A&I Prerequisite:**

Students enrolled in RM are required to have completed one of the following training courses on the fundamentals of instructional methodology before class start date:

- Instructor Methodology Course available on DAFeL (Percipio):  
<https://usaf.percipio.com/linked-contents/bbbc1a20-a647-4ada-be2d-07005cd20c45/landing>
- Fundamentals of Instruction (FOI) course available through 81 TRSS Faculty Development:  
<https://www.keesler.af.mil/Units/81st-Training-Wing/81-TRSS-Faculty-Development/Course-Catalog/>
- Basic Instructor Course (BIC)
- Military Training Instructor (MTS) course

If enrolled students believe they have completed an equivalent course or have relevant experience that may fulfill this requirement, contact the acting DAF Risk Management Program Manager for further guidance (DSN 263-6978/Commercial 505-853-6978).

## **SMC Prerequisites:**

1. Students enrolled in SMC must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

2. Students enrolled in SMC must establish an AFSAS production account with data extraction role at <https://afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required.” Account can be denied for insufficient justification. Request an account upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you’re 3 days out from class start date and haven’t received a confirmation e-mail that account has been approved. Log into AFSAS before class start date to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After creating your account, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

Data Extraction Access: Events  
Data Extraction Access: Recommendations  
Events Tabs: View (JA Time Restricted)  
Events Tabs: View (Org & Time Restricted)  
Event: Data Viewer  
Event: Investigator  
Event: Supervisor Investigator  
Event: Message (View Only)  
Event: Message Approval  
MUSTT: Motorcycle Safety Representative  
Recommendation: Approval  
Recommendation: Coordination  
Recommendation: OCR Management  
Recommendation: Update (OPR/OCR)  
Recommendation: View Only  
Workspace: US Air/Space Force

## **SMIC Prerequisites:**

1. Students enrolled in SMIC must complete the below required training before class start date:

- Protecting Privileged Safety Information
  - a. Log in to DAFeL at: <https://usaf.percipio.com/>
  - b. In the “Search” block at the top, type in “Protecting Privileged Safety Information”
  - c. In the right column, click on the “Protecting Privileged Safety Information” course
  - d. Click on “Launch” to complete the training

NOTE: Students meet the training requirement if they have previously completed “Protecting Privileged Safety Information (C11455)” in myLearning within 1 year of class start date.

2. Students enrolled in SMIC must establish an AFSAS Simulator account with elevated roles at <https://sim.afsas.safety.af.mil> before class start date. Click on the “Create AFSAS Account” hyperlink. Input strong justification, such as “Attending AFSEC formal class; access to mishap data extraction tool and mishap data viewer is required.” Account can be denied for insufficient justification. Request an account upon receipt of welcome e-mail to allow time for account review and approval. Administrator contact information is provided at the bottom of the request page. Contact the administrator if you’re 3 days out from class start date and haven’t received a confirmation e-mail that the account has been approved. Log into AFSAS before class start date to ensure access has been granted. Your AFSAS account must be active on Day 1 of the class.

After your account is created, you must request elevated roles under “My Account Roles.” Below are the minimum roles to select:

AFSAS Basic Account  
Data Extraction Access: Events  
Date Extraction Access: Recommendations  
Event Tabs: View (JA Time Restricted)  
Event Tabs: View (Org & Time Restricted)  
Event: Data Viewer  
Event: Investigator  
Event: Message (View Only)  
Event: Message Approval  
Recommendation: Coordination  
Recommendation: OCR Management  
Recommendation: Update (OPR/OCR)  
Recommendation: View Only  
Workspace: US Air/Space Force

Computer Access: Air Force Network (AFNET) account is required to log in to AFSEC computers.
